BURDENS LIFTED

From Paris Backs—Relief Proved
by Lapse of Time.

Backache is a heavy burden;
Nervousness wears one out;
Rheumatic pain; urinary ills;
All are kidney burdens—
Daily effects of kidney weakness.
No use to cure the symptoms.
Relief is but temporary if the cause
remains.

Relief comes quickly—comes to stay.
Doan's Kidney Pills cure kidney
ills.

Cure sick kidneys permanently.
Here's proof that you can verify.
C. A. Wallace, 451 H. St. Claire
Street, Frankfort, Ky., says: "Kid-
ney trouble in my case was brought on
by a strain I received while doing
some heavy lifting at my work. I suf-
fered from a dull ache and lameness in
my back and as time went on, it grew
worse. I could scarcely get around
and a difficulty with the kidney secre-
tions also caused me additional annoy-
ance. I used various remedies but re-
ceived little relief until I heard of
Doan's Kidney Pills and procured a
supply. I was helped from the first
and continued taking them until I was
benefited in every way."—From state-
ment given in 1903.

A PERMANENT CURE.

On March 3, 1908, Mr. Wallace con-
firmed the above statement saying:
"The results I received from Doan's
Kidney Pills five years ago have lasted
and although I am an old man, I am
enjoying fine health. I attribute the
great change entirely to the curative
powers of Doan's Kidney Pills."

Diseased Cows at Central Asylum

State Veterinarian F. T. Eisenman
has just tested the herd of fine Hol-
stein cows at the Central Asylum for
the Insane at Lakeland and pronounced
22 of the 71 cows in the herd infected
with tuberculosis. Dr. Eisenman's re-
port came as a bombshell to the State
Board of Control and especially to
Stanley Milward, the member from
Lexington, as it was upon his recom-
mendation and examination of the cows
that they were recently purchased at
fancy price in Ohio.

Not satisfied with the test made by
the State Veterinarian the Board of
Control has employed Dr. Alex. Hart-
hill, of Louisville, to make an ex-
amination and Milward has taken a
sample of milk produced by the asy-
lum to the State Experiment Station
at Lexington for examination and
analysis.

Dr. Eisenman made his test of the
Central Asylum cows together with a
veterinary in the employ of the Federal
Government, and both made thorough
examination. The Board of Control
produced certificates of the good health
of the cattle at the time of their pur-
chase a few months ago. Dr. Eisen-
man called attention to the fact that
the certificates all showed the tests
were made before 10 o'clock in the
morning when experts agreed that
tests made that early in the day were
not reliable and his tests were made in
the afternoon.

The Board of Control is said to ques-
tion Dr. Eisenman's right to make
tests of the asylum cows inasmuch as
his duties as prescribed by the statutes
confine his examinations to the herds
of those who have milk for sale, and
it is contended that the asylums cannot
come under such classifications.

School of Telegraphy.

We take pleasure in directing our
readers' attention to the advertise-
ment of the Southern School of Tele-
graphy, of Newnan, Ga., which appears
elsewhere in this issue of the News.
The S. S. T. is the leading Telegraph
Institute in the United States and its
graduates are always in demand. The
railroads of the country are in need of
many additional telegraph operators,
and every young man wishing to learn
a practical trade would do well to
write the school at Newnan for its
new illustrated catalogue giving full
information.

Deal on for 1909 Pool.

The American Tobacco Company has
opened negotiations with the Burley
Tobacco and Insurance Company for the
purchase of the 1909 pooled crop.
R. K. Smith, Vice President of the
company and head of the leaf depart-
ment, has had two conferences with
the sales committee of the Burley
Growers' organization, at which the
sale of the tobacco in the 1909 pool
was discussed. Just how far the ne-
gotiations have advanced the commit-
tee will not state but admits that a
third conference will be held soon for
further discussion. Both conferences
were held in Lexington, the second be-
ing on Wednesday of last week.

The Burley people say they have ap-
proximately 70 per cent of the entire
crop in the pool this year, and the pro-
posed deal would involve millions. Al-
though the sales committee will not
confirm, indications point to an early
closing of the deal.

Proposes Mass Meetings.

M. C. Rankin, Commissioner of
Agriculture, intends to issue a state-
ment to the tobacco growers in which
he will suggest that they meet and go
on record as willing to share of the
outage fees for 1906 and 1907 at
present in the hands of the society
remain in charge of the society for the
promotion of the 1909 pool. Such ac-
tion will prove, he thinks, a great
stimulus and encouragement to the
society at this time, when by Judge
Benton's decision the society is placed
in the hands of receivers, and the out-
age fees ordered distributed among the
growers.

The Commissioner will suggest mass
meetings of those who participated in
the two earlier pools at the county seat
of each county in the Burley belt, and
the taking of such steps as he has in-
dicated.

CITY COUNCIL

Holds Regular Monthly Session—

Last Meeting of Old Board—Pro-
ceedings in Brief—Finance Com-
mittee Reports.

The last regular meeting of the pres-
ent City Council was held Thursday
night in the Council chamber, in the
City Hall, with Mayor James M. O'Brien
presiding and a full board of council-
men present.

The minutes of the last meeting,
which included the approval by the
Council of the sale, for \$150, of a 20-
year franchise to the Paris Electric
Light Company, were read by Clerk
Adair, and upon aye and nay vote, were
unanimously approved.

Mayor O'Brien laid before the Council
a communication from Dr. C. G. Daugh-
erty, secretary of the Board of Trus-
tees of the Paris public library, stat-
ing that the term of office for which
each were appointed had expired, and
that they were serving until the ap-
pointment and qualification of their suc-
cessors. Mayor O'Brien then announced
his list of appointments, which were
voted upon and approved by the Coun-
cil, as follows: Dr. C. G. Daugherty,
D. C. Parrish, W. W. Mitchell, R. K.
McCarney and F. P. Walker.

Mayor O'Brien laid before the Coun-
cil a request from the Paris Gas Light
Company that a second franchise for
the erection, maintenance and operation
of an electric light plant be sold, which
was laid upon the table.

Chairman D. C. Parrish, of the Fi-
nance Committee of the Council, filed
a report which showed that the reve-
nues for the fiscal year were as fol-
lows: Tax bills \$52,953.19; whiskey
\$1,175.05; Franchise, \$1,080.93; li-
censes, \$7,633.75; all other sources,
\$1,845.91; or a grand total of \$64,-
718.91.

Mr. Parrish presented to the council
six canceled school bonds to the value
of \$3,500, and interest coupons aggre-
gating \$1,202.50.

The report showed that of the aggre-
gate amount received from all sources,
the sum of \$9,846.62 went to the sup-
port of the public schools and \$1,944.-
63 for the maintenance of the public
library.

The council allowed the claim
of Tax Collector R. K. McCarney, at
the rate of 24 per cent, which aggre-
gated the sum \$1,617.97.

Chairman Parrish in his address be-
fore the council expressed his regrets
at the final leave taking, saying that
with most members of the council, he
had been in the harness for twelve
years, that their meetings, associa-
tions, and labors in the interest of all
the people had been pleasant, and har-
monious; that each could look back
with personal pride in the growth of
the city, in the excellent public im-
provements accomplished, and the
healthful moral and physical atmos-
phere of a rapidly growing city.

Emmett Edwards was granted a per-
mit to erect a two story frame cot-
tage on High street extension, costing
\$1,200; and Adam Bailey, colored, a
permit to build a \$400 cottage in west
Paris. The permit of Mrs. Georgia Kel-
ler and Miss Belle Mitchell, to erect
a veneered brick frame residence on
Pleasant street, costing \$2,500 or more,
was rejected, on the grounds that the
location was within the fire zone dis-
trict of the city and which called for a
complete brick or stone building.

After allowing the usual batch of
claims the council adjourned.

Great Volume of Merchandise.

The great volume of American mer-
chandise now being carried by rail
across the Isthmus of Panama and the
Isthmus of Tehuantepec is shown
by the fact that for the fiscal year
1909 the goods transported amounted
in value to more than \$60,000,000. The
total for this calendar year probably
will reach \$75,000,000.

How to Receive Advice.

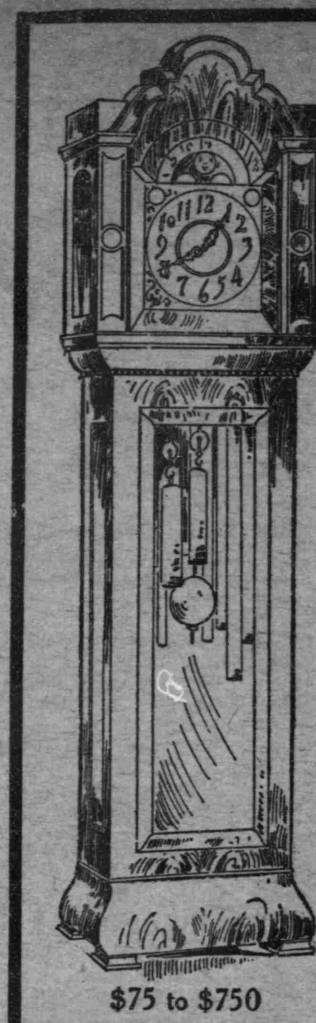

More wisdom is required in taking
than in giving advice. It should sel-
dom be taken whole. The great
thing, as we believe, is to take none
which is out of character. To do so
is to regret it. If we are naturally
slow of decision, we shall be hurried
into promptness at our peril. If we
are by nature placable and polite, we
must not take advice to be arbitrary
even in the best cause, says a writer
in the London Spectator. If we are
impulsive, we should take counsel
with a man of the same temperament
and stronger mind; but not with the
phlegmatic, though he be the wisest
slowcoach on earth. We all know
our own defects, and if we are decent
people at all our moral constitution
has set up certain compensations. To
disturb these is to court failure. So
far as the isolated act is concerned,
rashly accepted advice may be good
enough—and successful enough—but
how are we to go on? We have
started on a course which is out of
character, and we shall stumble until
we get back into our stride.

She Lives in Louisville.

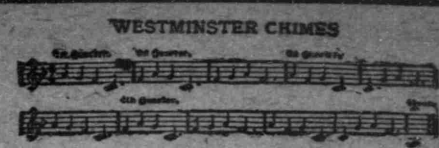

A young woman whose name is—
whose name is—well, if you can guess
it, is something like—never mind
what her name is—started everybody
within a certain block on Fourth ave-
nue the other day. She proved then
that she doesn't believe in hiding her
light under a bushel, especially when
it is needed by the other fellow.

A car was nearing a corner, and a
man was dashing madly down a cross-
street in an effort to nab it before it
sailed by. It looked as though he
would miss it, though, and then it was
that the girl placed her fingers to her
lips and blew a shrill blast that Peter
Pan would have delighted in, and
which is given only to the elect to
produce.

The car stopped. The fatigued run-
ner clambered aboard, turning once to
bow his thanks to the laughing dam-
sel.—Louisville Courier-Journal.

W.B. Reduso

CORSETS

The Perfect Corset for Large Women

It places over-developed women on the same basis as their
slender sisters. It tapers off the bust, flattens the abdomen, and abso-
lutely reduces the hips from 1 to 5 inches. Not a harness—not a
cumbersome affair, no torturing straps, but the most scientific example
of corsetry, boned in such a manner as to give the wearer absolute
freedom of movement.

New W. B. Reduso No. 770 for large tall women. Made of white
cotton. Hose supporters front and sides, also made in batiste. Sizes 20 to 36.
Price \$3.00.

New W. B. Reduso No. 772 for large short women. Is the same as No.
770, except that the bust is somewhat lower all around. Made of white cotton.
Hose supporters front and sides. Also made in batiste. Sizes 20 to 36.
Price \$3.00.

Ask any dealer anywhere to show you the New W. B. "Hip-subsiding"
models from \$1.00 to \$3.00 per pair.

Willing to Say Good-By.

"I pay as I go," declared the loud-
mouthed person.

"No doubt you do," answered the
quiet man, "but I'd rather see the
style of your departure than the color
of your money."

Hard Lines.

"I could perfect my machine if I
could get anybody to believe in me."

"Yet you are undoubtedly a genius."
"That's just the trouble. Everybody
thinks it isn't safe to trust a genius
with money."
